PINNACLE FINANCIAL EXPANDS PROFITABILITY IN SECOND QUARTER 2011

NASHVILLE, Tenn., July 19, 2011 – Pinnacle Financial Partners, Inc. (Nasdaq/NGS: PNFP) today reported that its net income per fully diluted common share available to common stockholders was \$0.14 for the quarter ended June 30, 2011, compared to net loss per fully diluted common share available to common stockholders of \$0.85 for the quarter ended June 30, 2010, and net income per fully diluted common share available to common shareholders of \$0.06 for the quarter ended March 31, 2011.

Net income per fully diluted common share available to common stockholders was \$0.20 for the six months ended June 30, 2011, compared to net loss per fully diluted common share available to common stockholders of \$1.02 for the first six months of 2010.

“We are pleased with another quarter of progress on our two primary priorities of expanding the core earnings capacity of the firm and aggressively dealing with credit issues,” said M. Terry Turner, Pinnacle’s president and chief executive officer. “We intend to maintain continued and significant progress on key measures of credit quality and core earnings, which include capitalizing on the growth opportunities in the Nashville and Knoxville markets.”

Aggressively Dealing with Credit Issues

During the second quarter, Pinnacle reduced classified assets by \$49.1 million, a linked-quarter reduction of 15.4 percent and the fifth consecutive quarter of net reductions. Classified assets are composed primarily of nonperforming assets and potential problem loans. Classified assets are down 43.7 percent from their peak at the end of June 2010.

- Nonperforming assets declined by \$20.2 million, a linked-quarter reduction of 15.3 percent and the fourth consecutive quarterly reduction. Pinnacle resolved \$38.7

million in nonperforming assets during the second quarter of 2011, compared to resolutions of \$33.5 million during the first quarter of 2011.

- Nonperforming loans declined by \$16.6 million during the second quarter of 2011, a linked-quarter reduction of 21.8 percent and the fifth consecutive quarterly reduction. Nonperforming loans are down 49.5 percent from a year ago. Additionally, nonperforming loan inflows decreased from \$25.4 million during the first quarter of 2011 to \$18.4 million in the second quarter of 2011.
- Potential problem loans also decreased from \$170.6 million at March 31, 2011, to \$148.5 million at June 30, 2011, a linked-quarter decrease of 13.0 percent and the fourth consecutive quarter of net reductions. Potential problem loans are down by 53.3 percent from their peak in June 2010.
- Exposure to construction and land development loans declined from \$411.5 million at June 30, 2010, to \$282.1 million at June 30, 2011, a decrease of 31.4 percent. Construction and land development loans are down 6.2 percent from \$300.7 million at March 31, 2011. Residential land development loans declined from \$142.3 million at June 30, 2010, to \$84.8 million at June 30, 2011. Residential land development loans were \$97.5 million at March 31, 2011.

Expanding the Core Earnings Capacity of the Firm

- Net interest margin increased to 3.55 percent for the quarter ended June 30, 2011, from 3.23 percent for the quarter ended June 30, 2010. Net interest margin for the quarter ended March 31, 2011, was 3.40 percent.
- Average balances of noninterest bearing deposit accounts were \$629 million in the second quarter of 2011, an increase of 5.8 percent over first quarter 2011 average balances of \$595 million and an increase of 24.7 percent over the same quarter last year.
- Loans at June 30, 2011, were \$3.21 billion, a decrease of \$10.3 million from \$3.22 billion at March 31, 2011. Commercial and industrial loans combined with owner-occupied commercial real estate loans were \$1.60 billion at June 30, 2011, an increase of \$6.58 million from \$1.59 billion at March 31, 2011, the third consecutive quarter of net growth.

- Revenue for the quarter ended June 30, 2011, amounted to \$47.60 million, compared to \$44.34 million for the first quarter of 2011 and \$46.27 million for the same quarter of last year, a linked-quarter increase of 7.1 percent.
- Four years after expanding to the Knoxville market, Pinnacle's operation in Knoxville reached over \$500 million in loans at the end of the second quarter 2011.
- Income before income taxes and TARP expenses increased from \$3.50 million for the quarter ended March 31, 2011, to \$6.66 million for the quarter ended June 30, 2011, a 90.3 percent increase.

"Our second quarter net interest margin of 3.55 percent was achieved primarily by continued reductions in our funding costs as time deposits continue to reprice downward," Turner said. "We are particularly pleased with the progress we made during the second quarter in resolution of troubled assets, which is also having a positive impact on our margin. As anticipated, we experienced continued reductions in troubled asset inflows and believe those trends will continue into the third quarter."

Turner also noted that the firm continues to explore the availability of the U.S. Treasury's Small Business Lending Fund.

"We continue to talk with our regulators about our potential participation in the SBLF," Turner said. "Although the likelihood of participation is significantly diminished by recent guidance from the U.S. Treasury regarding SBLF eligibility for bank holding companies who, like us, are restricted in their ability to pay dividends without the prior approval of the Federal Reserve, we are encouraged by our second quarter results and remain hopeful that we can repay TARP with minimal dilution to our common shareholders regardless of SBLF participation."

OTHER SECOND QUARTER 2011 HIGHLIGHTS:

- **Core Deposits**
 - Core deposits amounted to \$3.18 billion at June 30, 2011, an increase of 14.4 percent from the \$2.78 billion at June 30, 2010. Core deposits at March 31, 2011, were \$3.11 billion.
- **Operating results**

- Net income available to common stockholders for the second quarter of 2011 was \$4.84 million, compared to the prior year's second quarter net loss available to common stockholders of \$27.87 million. First quarter 2011 net income available to common stockholders totaled \$2.01 million.
- Net interest income for the second quarter of 2011 was \$37.80 million, compared to \$36.02 million for the first quarter of 2011 and \$35.70 million for the same quarter last year.
- Noninterest income for the quarter ending June 30, 2011, was \$9.8 million (including \$0.6 million of net securities gains), compared to \$8.3 million (net of \$0.2 million of net securities losses) in the prior quarter and \$10.6 million (including \$2.3 million of net securities gains) the same quarter last year. Excluding the impact of net securities gains, noninterest income was up 8.4 percent on a linked-quarter basis and 10.7 percent over the same quarter last year.
- Wealth management revenues, which include investment services, trust and insurance, were \$3.41 million during the second quarter of 2011, an increase of 14.7 percent over the same period last year.

“In addition to our net interest margin increasing to 3.55 percent, our net interest income increased by approximately 4.93 percent from the first quarter results,” said Harold R. Carpenter, Pinnacle’s chief financial officer. “Contributing to this increase were reduced funding costs and the continued reduction in nonperforming assets.”

“We believe we will continue to have opportunities to expand margins in future quarters primarily by reducing the funding cost associated with the firm’s time deposit portfolio,” Carpenter said.

- **Capital**

- At June 30, 2011, Pinnacle’s ratio of tangible common stockholders’ equity to tangible assets was 7.7 percent, compared to 7.1 percent at June 30, 2010, and 7.4 percent at March 31, 2011. At June 30, 2011, Pinnacle’s total risk-based capital ratio was 15.5 percent, compared to 14.8 percent at June 30, 2010, and 15.2 percent at March 31, 2011.

- **Credit quality**

- Net charge-offs were \$8.61 million for the quarter ended June 30, 2011, down from \$33.46 million for the quarter ended June 30, 2010, and \$9.73 million for the first quarter of 2011.
- The allowance for loan losses represented 2.40 percent of total loans at June 30, 2011, compared to 2.46 percent at March 31, 2011, and 2.61 percent at June 30, 2010.
- Nonperforming assets were 3.44 percent of total loans plus other real estate at June 30, 2011, compared to 4.04 percent at March 31, 2011, and 4.77 percent at June 30, 2010. The ratio of the allowance for loan losses to nonperforming loans increased to 128.9 percent at June 30, 2011, from 103.4 percent at March 31, 2011.
- Past due loans over 30 days, excluding nonperforming loans, were 0.40 percent of total loans at June 30, 2011, compared to 0.36 percent at March 31, 2011, and 0.66 percent at June 30, 2010.

The following is a summary of the activity in various nonperforming asset and restructured accruing loan categories for the quarter ended June 30, 2011:

- **Noninterest expense and taxes**

- Noninterest expense for the quarter ended June 30, 2011, was \$34.36 million, compared to \$36.49 million in the second quarter of 2010 and \$34.70 million in the first quarter of 2011.
- Compensation expense was \$18.52 million during the second quarter of 2011, compared to \$15.85 million during the second quarter of 2010 and \$17.92 million during the first quarter of 2011.
- Included in noninterest expense for the second quarter of 2011 was \$3.83 million in other real estate expenses, compared to \$7.41 million in the second quarter of 2010. First quarter 2011 other real estate expense was approximately \$4.33 million.
- Included in income tax expense for the second quarter of 2011 was \$288,000 related to the resolution of a recently completed federal tax examination for fiscal years 2007-2009.

Carpenter noted that compensation costs for the second quarter of 2011 increased by 3.35 percent over the first quarter of 2011, driven largely by increased incentive accruals pursuant to the firm's annual cash incentive plan.

"Given our performance so far this year on credit quality and earnings, the two primary influences on our annual cash incentive payments, we increased our incentive allocation to a potential full payout of our plan award to participating associates," Carpenter said. "We expect compensation expense to level out for the remainder of the year except for modest increases related to several new relationship managers we are actively recruiting."

Excluding the impact of OREO expenses, the second quarter of 2011 noninterest expense was approximately \$30.53 million, compared to \$30.37 million in the first quarter of 2011 and \$29.08 million in the second quarter of 2010. Included in the other real estate expense for the quarter was \$1.6 million of additional write downs of existing balances based on updated appraisals. The firm also recorded \$796,000 in losses related to the disposition of \$15.2 million of other real estate properties. Carpenter noted that the firm anticipates foreclosures of approximately \$20 million in the third quarter of 2011 but that final resolution of several larger properties will affect other real estate balances for the third quarter.

“We made meaningful progress during the second quarter on our priorities of improving the core earnings capacity of the firm and aggressively dealing with credit issues, and we would expect continued progress on those priorities in the third quarter,” Carpenter said.

SELECTED QUARTERLY FINANCIAL DATA – UNAUDITED

1. Ratios are presented on an annualized basis.
2. Net interest margin is the result of net interest income on a tax equivalent basis divided by average interest earning assets.
3. Total revenue is equal to the sum of net interest income and noninterest income.
4. Efficiency ratios are calculated by dividing noninterest expense by the sum of net interest income and noninterest income.
5. Restructured Accruing Loans include loans where the company, as a result of the borrower's financial difficulties, has granted a credit concession to the borrower (i.e., interest only payments for a period of time, extending the maturity of the loan, etc.). These loans continue to accrue interest at the contractual rate and are considered to be troubled debt restructurings.
6. Average risk ratings are based on an internal loan review system which assigns a numeric value of 1 to 10 to all loans to commercial entities based on their underlying risk characteristics as of the end of each quarter. A "1" risk rating is assigned to credits that exhibit Excellent risk characteristics, "2" exhibit Very Good risk characteristics, "3" Good, "4" Satisfactory, "5" Acceptable or Average, "6" Watch List, "7" Criticized, "8" Classified or Substandard, "9" Doubtful and "10" Loss (which are charged-off immediately). Additionally, loans rated "8" or worse that are not nonperforming or restructured loans are considered potential problem loans. Generally, consumer loans are not subjected to internal risk ratings.
7. Annualized net loan charge-offs to average loans ratios are computed by annualizing year-to-date net loan charge-offs and dividing the result by average loans for the year-to-date period.
8. Capital ratios are for Pinnacle Financial Partners, Inc. and are defined as follows:
 - Equity to total assets – End of period total stockholders' equity as a percentage of end of period assets.
 - Leverage – Tier one capital (pursuant to risk-based capital guidelines) as a percentage of adjusted average assets.
 - Tier one risk-based – Tier one capital (pursuant to risk-based capital guidelines) as a percentage of total risk-weighted assets.
 - Total risk-based – Total capital (pursuant to risk-based capital guidelines) as a percentage of total risk-weighted assets.
9. Book value per share computed by dividing total stockholders' equity less preferred stock and common stock warrants by common shares outstanding.
10. Amounts are included in the statement of operations in "Gains on the sale of loans and loan participations sold", net of commissions paid on such amounts.
11. At fair value, based on information obtained from Pinnacle's third party broker/dealer for non-FDIC insured financial products and services.
12. Floating rate loans are those loans that are eligible for repricing on a daily basis subject to changes in Pinnacle's prime lending rate or other factors.
13. Core deposits include all transaction deposit accounts, money market and savings accounts and all certificates of deposit issued in a denomination of less than \$100,000. The ratio noted above represents total core deposits divided by total funding, which includes total deposits, FHLB advances, securities sold under agreements to repurchase, subordinated indebtedness and all other interest-bearing liabilities.
14. Associate retention rate is computed by dividing the number of associates employed at quarter-end less the number of associates that have resigned in the last 12 months by the number of associates employed at quarter-end.
15. Employment and unemployment data is from the US Dept. of Labor Bureau of Labor Statistics. Labor force data is not seasonally adjusted. The most recent quarter data presented is as of the most recent month that data is available as of the release date. The Nashville home data is from the Greater Nashville Association of Realtors.
16. Brokered deposits do not include reciprocal balances under the Certificate of Deposit Account Registry Service (CDARS).
